TITLE:

Lotus 20/20 diagnostic tool software update for 2021 model year for Federal Evora GT models is now available.

REASON:

Latest Level ECU .Crp File Information Available on Lotus 20/20

Original level/number	Replaced by	Reason for update
A132E0302	→ B132E0302	To comply with current emission diagnostic requirements.

An ECU.crp program update is now available for all Federal Evora 2021 model year vehicles to ensure that they meet the current emissions diagnostic requirements.

These latest level ECU program MUST be installed into the affected vehicles as soon as possible, (such as at the time of pre-delivery inspection etc or if the vehicle is in the workshop for any other service or repair). An affected vehicle CANNOT be handed over to the customer before this update is performed.

ACTION:

- Please check your Lotus 20/20 diagnostic tool* is installed with the latest release version 1.8.0 onwards which includes .crp program B132E0302 at the earliest opportunity.
- Check and identify any affected vehicles from your inventory stock, dealer demonstrators and customer records to ensure that this campaign action is performed at the first opportunity.
- Contact the owners of any affected vehicles to arrange an appointment with your dealership to have this campaign action performed as soon as possible.
- Affected vehicles will be displayed if their VIN is entered on DC611 on Lotus Dealer Connect (campaign number 2021/08USA). A VIN list is also shown on page 2 onwards of this bulletin.

*For further information, refer to LSL683 Lotus 20/20 Users Guide, which is available to download from the Lotus Dealer Portal, from the home page go to After sales>Lotus Diagnostic 20/20 System

CHARGES:

Labor time for carrying out this procedure may be claimed by submitting a bulk entry claim on Lotus Connect, option DC603, Bulk Entry Campaign, campaign number 2021/08USA, for 0.3 hrs per vehicle.

Ends.
